

Safe, resilient and precisely fitting: MBN screws

**NEW IN
RANGE**

Immediately available in stock: Many fasteners in accordance with MBN

Highest quality for all vehicle applications with MBN screws

In vehicle construction, fasteners often have to withstand heavy loads. As a major manufacturer, Mercedes-Benz has developed its own standards, setting industry benchmarks that go beyond DIN specifications. That is why REYHER has an extensive range of screws and nuts in accordance with MBN permanently available from stock.

All items have reliable corrosion protection (720h) thanks to their zinc flake coating. The specified requirements ensure a high degree of accuracy when different components are put together and also ensure a high level of safety, even under extreme conditions such as sudden stress or impact.

All advantages at a glance:

- Corrosion protection 720h
- High accuracy of fit for smooth installation and optimum performance
- High strength class (10.9)
- Safety even under extreme conditions
- Extensive range
