Central location Hamburg – our gateway to the world

since 1887

REYHER then

Today REYHER is one of Europe's leading distributors of fasteners and fixing technology supplying industry and trade customers worldwide.

Our subsidiary F. REYHER Asia-Pacific Co., Ltd. in Shanghai takes care of the Asian market.

Chronicle

- 1887 Ferdinand Reyher starts trading in iron goods, tools and ship's supplies, located directly in the port in Hamburg at Erste Vorsetzen.
- 1901 Karl Tede and Otto Meyer take over the company, since when it has been called F. REYHER Nchfg.
- 1912 First export business in Finland.
- 1949 REYHER specialises in the trade of fasteners.
- 1959 Move from the port to the current head-quarters at Haferweg in Altona, Hamburg.
- 1987 REYHER celebrates its 100-year anniversary.
- 1993 REYHER first company in the field to achieve DIN ISO 9002 certification.
- 2003 Construction of a fully automatic high-rack warehouse.
- 2005 REYHER Asia-Pacific Co., Ltd. established in Shanghai.
- 2007 REYHER introduces an online standard parts library with 2D and 3D models.
- 2011 Construction of a further logistics hall with an additional conference center.
- 2012 REYHER celebrates 125-year anniversary.
- 2017 Construction of a high-rack warehouse for further 40,000 pallet places and with connected logistic and office building.

- AEO F

REYHER – 130 YEARS' EXPERIENCE.

We stock a wide and deep product range in all common dimensions and with all typical surfaces.

In addition to standard fasteners we have numerous non-standards items. Our range is complemented with a large choice of fixing technology from highly reputable manufacturers.

From a total of more than 130,000 different items in stock we have 80,000 listed in our catalogue, with further 50,000 items in C-parts management for our customers.

Do you need engineered parts? Or customer-specific parts? We can support you and source your item in the required size, material and surface.

This is more than just a list of items available from stock. The catalogue includes comprehensive technical information, to assist you in your daily work.

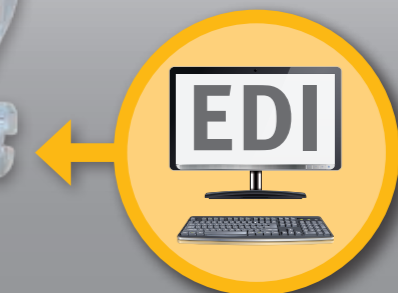

What the eye cannot see, can be seen by our test equipment. For example optical measurement, spectral analysis, salt-spray tests and much more.

We always supply the same high quality that our customers expect and can always rely on.

In addition to standardised or prescribed standards tests, customer-specific and agreed testing plans come into play.

Ordering channels

130,000 DIFFERENT ITEMS IN STOCK.

100,000 pallet places

The daily incoming goods as well as 285 tons of outgoing goods are managed efficiently. Our sophisticated warehouse logistics system handles everything smoothly.

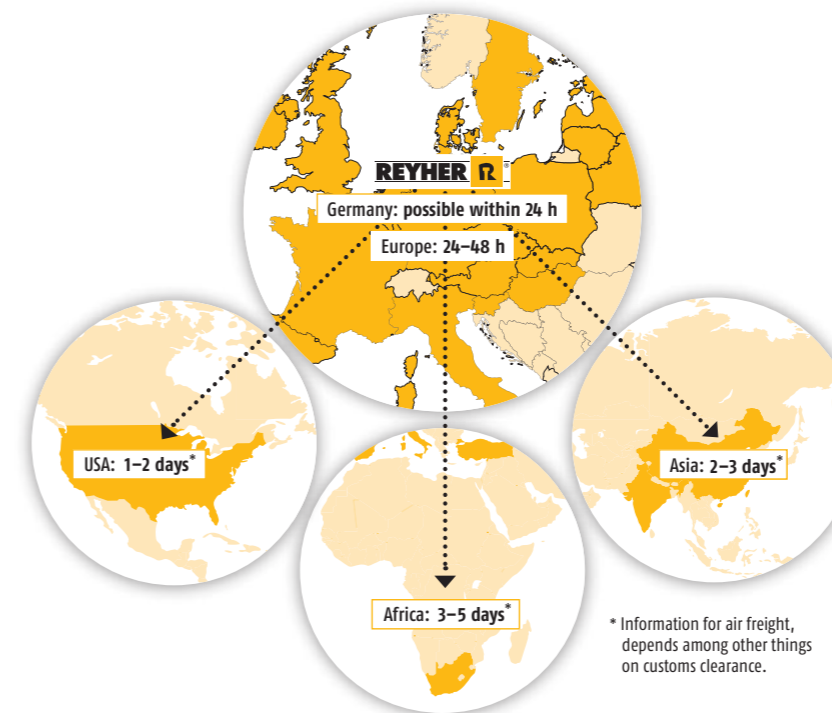

In our state-of-the-art warehouses we have a new high-rack warehouse of 40,000 pallets, making a total of 100,000 pallets and 120,000 bins available.

Our daily supply readiness is at over 99 per cent.

Every day we process an average of 21,000 order positions, which our reliable system despatches around the world.

View into the Shipping department: the automated sorter supports the efficient order processing.

* Information for air freight, depends among other things on customs clearance.

Perfectly networked. Our long conveyor system brings the items included in an order to the correct packing station.

OUR DAILY SUPPLY READINESS IS AT OVER 99%.

Consulting and technical expertise

We have qualified engineers and technicians in our dedicated REM – REYHER Engineering Management team. Here we tackle everything directly and indirectly involving fasteners and fixing technology. Continuous in-service training ensures we are always on top form. We do not keep our knowledge to ourselves. We advise our customers individually and hold training sessions. Our support goes far beyond choosing the correct screw. We help our customers to standardise their own range of products and structure it more economically. In addition we are active in many specialist and standards committees.

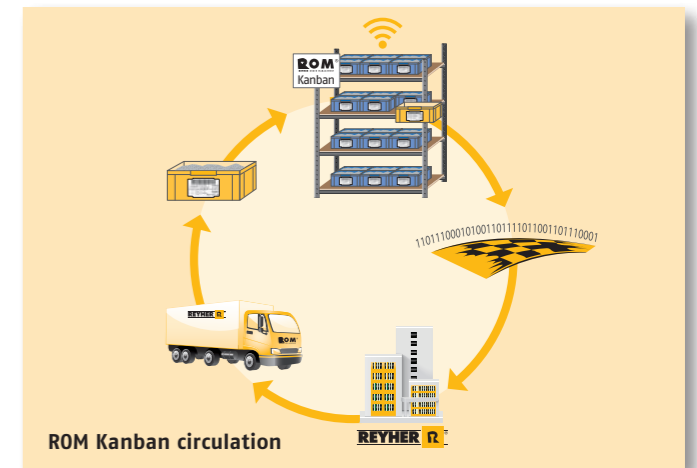

**FASTENER SOLUTIONS ARE DEVELOPED TOGETHER.
OUR CONSULTANTS ARE EXPERIENCED ENGINEERS AND TECHNICIANS.**

Flexible Kanban supply systems

REYHER has offered C-part management systems since 1993. Using ROM – REYHER Order Management provides our customers with the most reliable supply procedures. Combinable modules, RFID technology, barcode systems, flexible labelling and modern data interchange form an all-round carefree package for seamless materials supply. Adapted precisely and flexibly to meet individual customer needs.

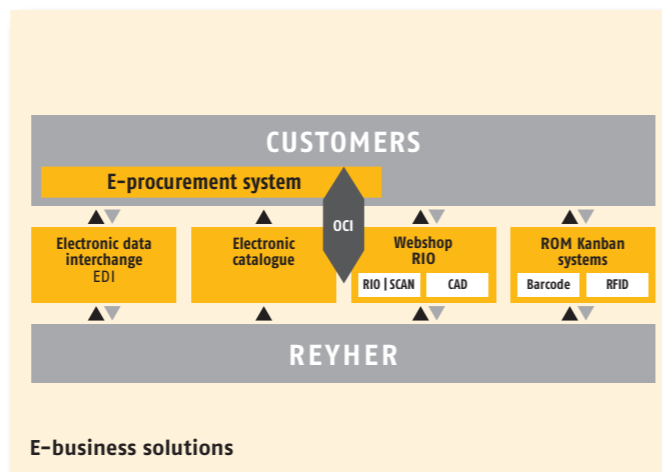

THE HIGHEST SUPPLY AND PROCESS RELIABILITY WITH ROM.

For regular interchange of business data the solution is EDI – Electronic Data Interchange. It's fast and transmission-error-free.

Electronic catalogues for customers can be individually tailored so that REYHER item data can be entered into almost every commonly used sourcing system.

The user-friendly webshop RIO – REYHER Internet Order makes it possible to see current availability and prices, at any time for every item. Orders can be placed with a minimum of clicks.

RKP – REYHER Kitting & Packaging fulfils customer needs for kitting and packaging in industry and trade.

This includes packaging design and labelling as well as compiling items into sets or complex assembly kits that can be given a prioritised pack sequence as required.

We despatch just-in-time to the construction site, to production halls, or wherever fasteners and fixing technology are needed.

TOGETHER WITH YOU WE DESIGN THE OPTIMAL ORDERING PROCESS.
