

# REYHER connects.

**When it comes  
down to it,  
it comes from  
REYHER.**

# **Your business runs smoothly. Thanks to our experience.**

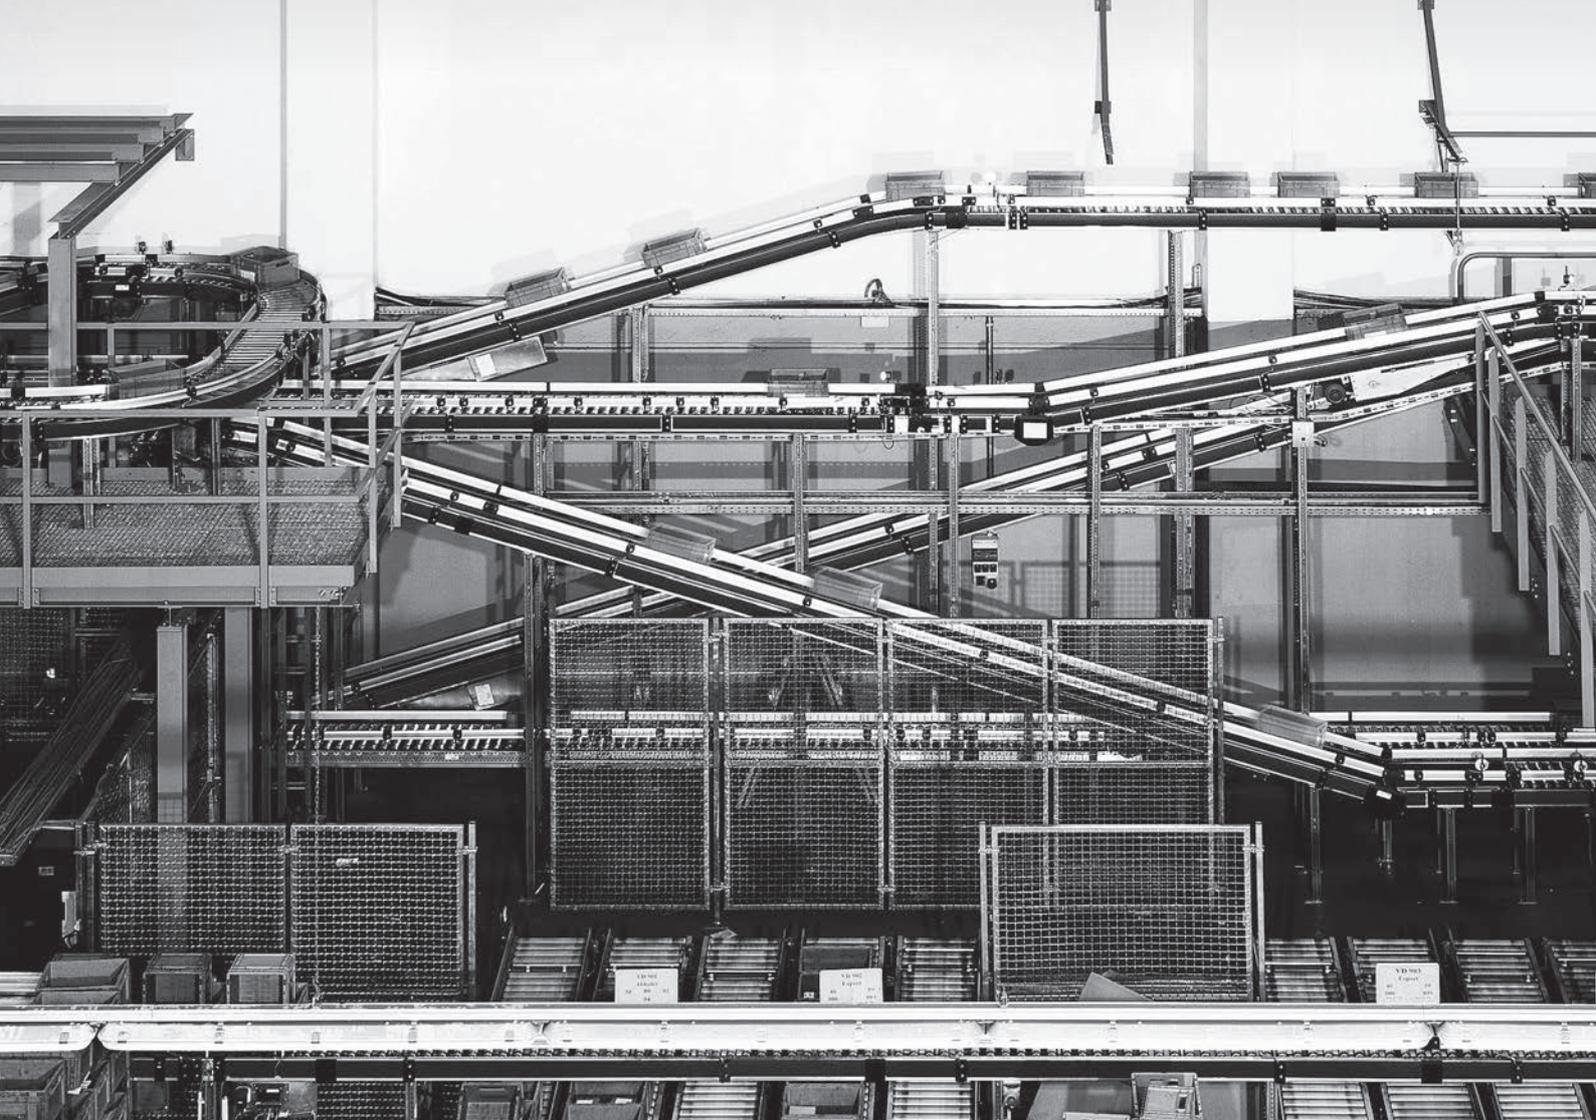

What do you need to know about screws, nuts, washers and the like? Absolutely nothing! C-parts are our job. We make sure you don't have to worry about a thing when it comes to connections. We deliver – swiftly, reliably, professionally.

**What you need.  
When you need it.  
We deliver.**

**➤ 130,000 items in stock**

**➤ 99 % availability**

**➤ 130 years of just-in-time delivery**

# Making sure a screw is no more than a screw to you!

We run an efficient and high-quality supply operation for your C-part logistics. C-parts are not expensive. But they can certainly cost you.

## **When a screw is missing, everything grinds to a halt.**

It may only be a small part, but it can be hugely significant. When a screw is missing, it can quickly have massive repercussions. That is why ensuring a secure supply chain is our top priority. With our C-part management, everything is exactly where it is needed.

## **REYHER supplies the goods – with automated and efficient processes.**

Forward planning, modern warehouse logistics and comprehensive services. With REYHER, all parts are with you when they are needed. We provide individual solutions. To keep everything flowing for you!

## **When systems don't function properly, things get costly.**

In a well-functioning machine, no gear can afford to get stuck. The protracted integration of (new) processes can cause everything to come to a standstill. This can be costly. That is why we adapt our services precisely to your systems – and not the other way around.

## **REYHER integrates seamlessly – and understands your processes.**

We step in wherever it eases your workload. We integrate our products and services into your operations with precision. Our team analyses your processes and comes up with efficient ideas and perfect solutions. Making sure everything runs like clockwork!

## **If you don't get the little things right, the whole thing becomes unsteady.**

Screws secure big things, which is why the quality must be spot on. Otherwise, a small part can quickly run up high costs. That is why we only stock the best products: high-quality, safe and, above all, tested.

## **REYHER – for connections that last.**

Our high standards begin with our suppliers. Our in-house laboratory conducts tests specific to your application, which means you can always rely on our products.

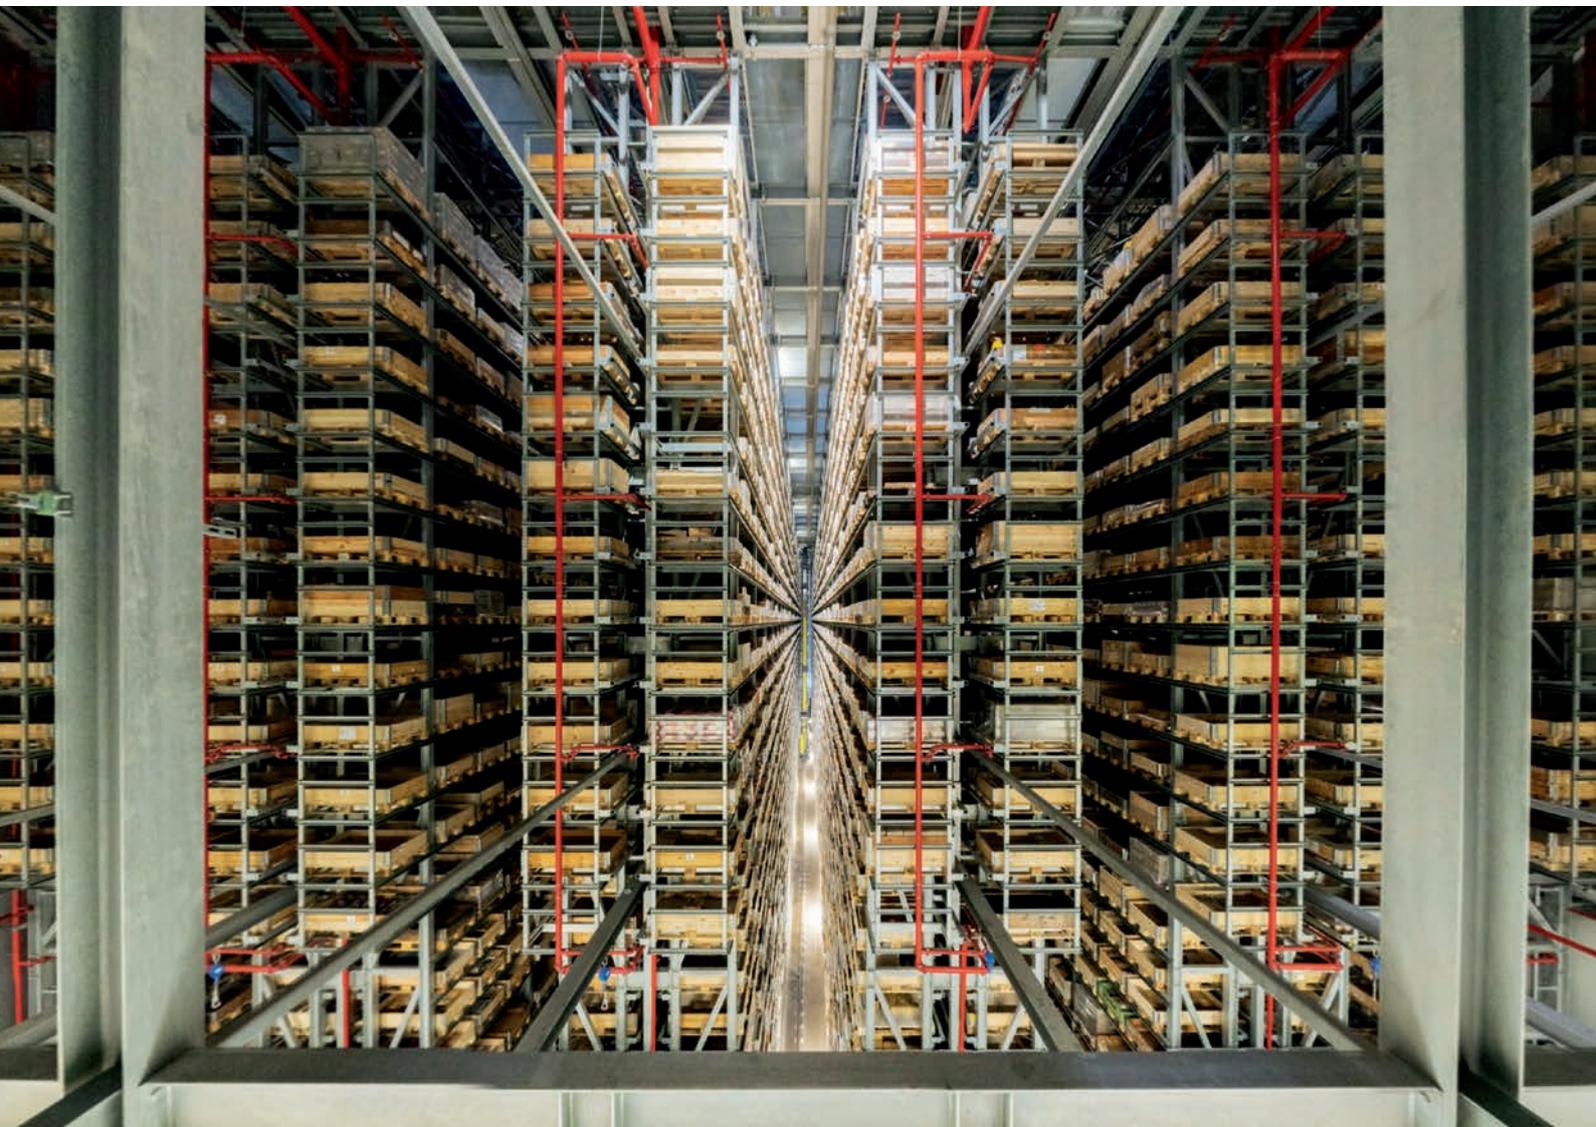

# The right part at the right time in the right place. We deliver with precision.

Over 130,000 items immediately available in stock.  
99% delivery availability.

## Availability redefined.

Others may promise, we deliver. At our state-of-the-art logistics centre in the heart of Hamburg, we have more than 130,000 items permanently available in stock. Whether standard items or customer-specific parts, whatever you order today will be delivered within 24 to 96 hours, depending on location.

Don't have the right part? We'll get whatever you need! All thanks to maintaining the best contacts with our suppliers, having an optimised supply chain and possessing technical expertise. If REYHER can't get it, then nobody can!

# Never more than a click away. We are always at your service digitally.

Ordering has never been easier, more secure or more efficient. Thanks to our partner solutions.

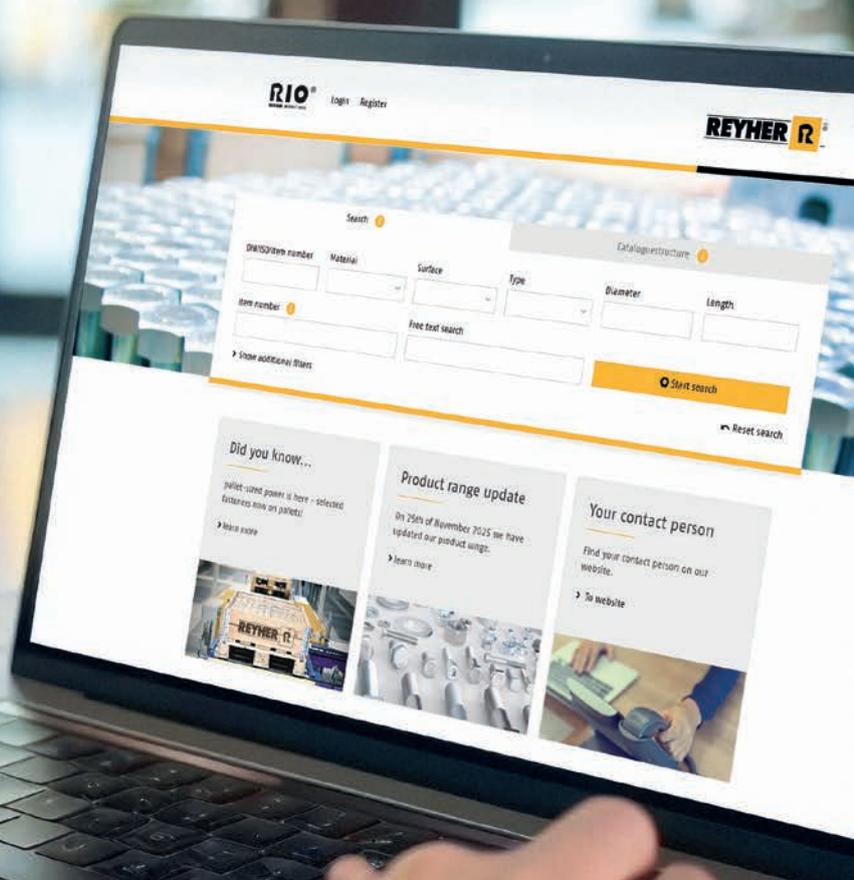

## ➤ Digital means easy.

We are always at your service digitally. You decide when, where and how. Our tailored e-business solutions fit perfectly into your processes. Whether connecting to our online shop, exchanging data via EDI or integrating kanban systems – your procurement process has never been more efficient.

You can save time and money thanks to digitalisation, helping you to avoid placing incorrect orders – for seamless C-part management. We are on hand as your partner so that you don't need to worry about a thing. We can advise you on your options – one click is all it takes.

## ➤ Available anytime and anywhere. Our RIO online shop for your business.

Get information whenever you need it. Technical details, current prices and availability, customer-specific product information. Without looking at the clock. Wherever you happen to be. Our online shop has been specially developed for B2B needs, with authorisation systems, budget management and individual presets by arrangement.

# Everything hangs on it: 100 % quality for your application.

Our fasteners deliver on their promise. Tested, reliable, well-designed. Thanks to comprehensive services.

## ↗ Uncompromising quality.

Screws have to withstand a great deal. That is why we regularly test our fasteners in our in-house test laboratory – including specifically for your needs. We take care of all the formalities and documentation. When it comes to the safety of your application, we refuse to compromise!

We are happy to share our expertise. Our technicians from REM – REYHER Engineering Management will advise you on your specific application. From selection to use. Whether it involves process testing, training, standardising or producing drawings and specifications, our experts are on hand to assist you.

## ➤ Logistics redefined.

We have an aversion to complexity, errors and hassle in your processes! With our kanban solutions, inefficiencies when ordering and supplying goods are a thing of the past. Needs are recorded digitally, while deliveries are automated. Your processes become leaner and more efficient.

Do you want to concentrate fully on your core business? With our full service, C-parts are no longer an issue for you! We make it easy to record your usage, coordinate reorders and deliver directly to your shelf. Everything is straightforward, smooth and dependable.

## ➤ Perfectly packaged.

Our fasteners are the basis of your business, while our kitting and packaging services are the icing on the cake for ensuring smooth processes. You tell us what you need. We will devise individual concepts and package everything perfectly.

More than merely supplying C-parts, we put your sets together. We package all C-parts in line with your workflows. And we deliver everything in your (retail) packaging. Efficiently. Precisely. Individually.

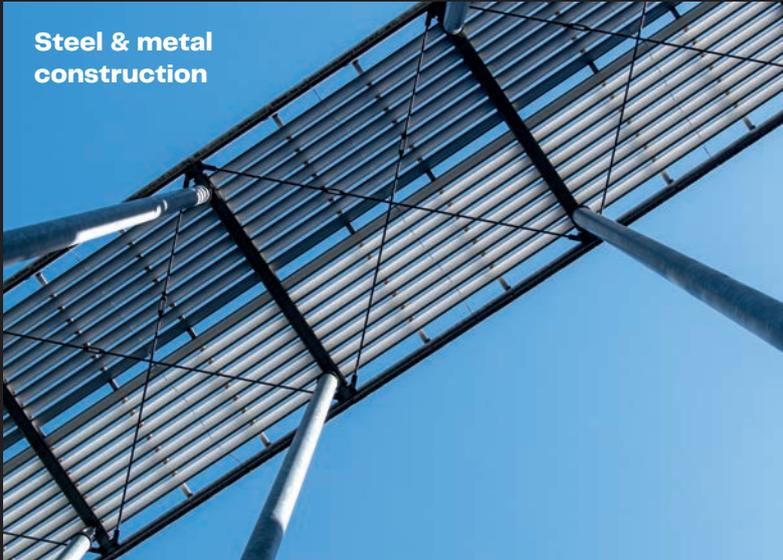

# Not just any screw, but yours.

Rather than looking for the simplest solution, we know your needs.

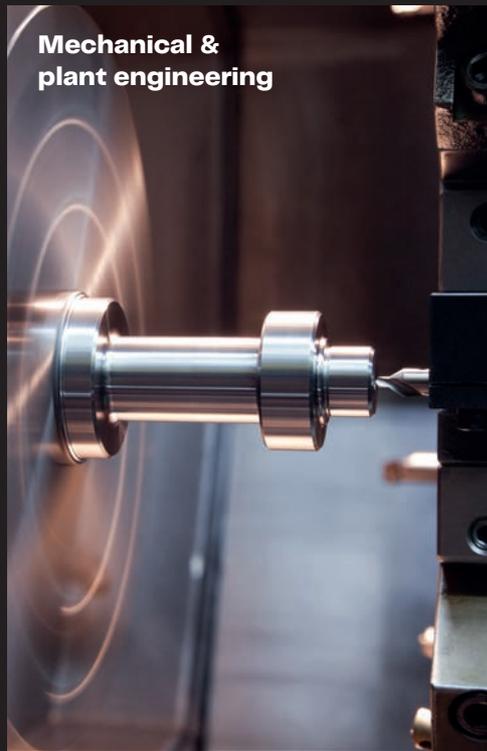

You have particular requirements when it comes to your fasteners. Our industry experts make sure we have what you need. Whether corrosion resistance, vibration damping or biocompatibility, our dedicated specialists will provide you with expert advice. Our logistics will deliver the right screw.

Do you need a fastener that is as unique as your product? We produce individual drawings and prototypes. Our suppliers manufacture high-quality products in line with certified standards.

A low-angle shot of a complex steel and metal structure, possibly a bridge or industrial framework, against a clear blue sky. The structure consists of numerous parallel metal beams and diagonal supports.

**Steel & metal  
construction**

A close-up, high-speed photograph of a metal part being machined on a lathe. The tool is cutting a groove into the metal, creating a bright, glowing point of contact.

**Mechanical &  
plant engineering**

A perspective view of a long line of silver cars parked in a lot. The scene is illuminated by the warm, golden light of a sunset or sunrise, creating a strong reflection on the car surfaces.

**Automotive**

A large industrial chemical plant with several tall, cylindrical distillation columns and a complex network of pipes and walkways. The sky is filled with soft, colorful clouds from a sunset.

**Chemical  
industry**

A series of offshore wind turbines standing in a row in the middle of the ocean. The sun is setting or rising behind the turbines, casting a warm glow over the scene.

**Renewable  
energy**

A high-speed train with a white body and a prominent red stripe is moving quickly through a modern, brightly lit railway station. The train is blurred to indicate speed.

**Railway technology**

# Connecting the world – since 1887.

The highest quality just in time is a tradition that is embraced at REYHER. Making sure everything runs smoothly for you. Always and everywhere.

## **At your side worldwide. Thanks to global connections.**

REYHER has been synonymous with the best service since 1887. Founded in Hamburg, at home in Hamburg. But always there, wherever you need us.

You have locations all over the world and want REYHER quality everywhere? We deliver to over 12,000 customers worldwide – swiftly and reliably.

And we speak your language: our team is multi-national and can assist you in your native language.

Our subsidiaries REYHER Asia-Pacific and REYHER Eastern Europe are expanding our presence in East Asia and Eastern Europe, in some cases with their own test laboratory, warehouse and kanban service.

**Global  
networks.  
Personal  
connections.**

**We never stop moving.  
All for you.**

Our logistics operation is always running at full speed – from the high-bay warehouse to order picking. We deliver efficiency thanks to automated processes. For the best delivery availability (> 99 %) and customer satisfaction.

**12,000**  
customers worldwide

**24,000**  
order items per day

**310 t**  
goods issue per day

**100,000**  
pallet places

**180,000**  
bin places

**47,000 t**

# A strong team delivering strong performances: values and culture at REYHER.

Reliable connections are at the heart of our working world.

## **We stick together. With enthusiasm and passion.**

Whether in the office or warehouse: #teamREYHER stands for respect, trust, sportsmanship and dependability. That is how we continue to grow together. REYHER encourages the individual development of every single person. Sporting events help the team to bond, while various benefits promote health, equal opportunities and well-being.

Trainees and dual/trial students are part of the team from the outset – on equal terms. REYHER has been successfully training its own young talents for over 50 years. Employees can also take advantage of intensive further training, improving their prospects and maintaining our efficiency. Both the team and our customers benefit from this.

# Committed to people and the environment: our CSR.

There is a tradition of sustainable economic activity at REYHER. And it has a future.

## We are already working on connecting tomorrow's world.

As a forward-looking company, it goes without saying that our business activities are sustainable. Our environmental management system was certified according to ISO 14001 back in 2000 and validated in line with EMAS in 2025. We are committed to saving resources in the course of our work. We take responsibility for our processes and products.

Children are our future. That is why we are a partner of the 'Hamburger Weg' initiative, supporting educational and sports projects for children and young people. Our donations benefit social projects, animal welfare work and student competitions. As a sponsor of the UKE charity run, we help to care for the children and adolescents at the University Medical Center Hamburg-Eppendorf (UKE). That is something we are very proud of!

**Sustainable solutions start really small**

# Connections are our speciality.
